

### **1. Tell me about yourself.**

Answer: My name is Md. Harun Or Rashid. And I'm a MERN Stack Developer. I'm in this sector for the last two years. I'm good at React JS, Mongo DB, Express JS, Firebase, JavaScript, ES6 (JavaScript), HTML, CSS, Tailwind CSS, Daisy UI, Bootstrap, React Bootstrap, and familiar with Node JS, and Material UI. I have done many projects. I am Diploma in Computer Engineering. I like to explore new technologies. I like to travel and watch movies.

### **2. Tell me about your best projects.**

Answer: I have done many projects. The resale market is my personal best project. Because it was a full-stack development project. The project was developed to purchase and sell old products. You can modify and delete the added products if necessary. You can pay for the products you order through Stipe. This project had React JS, Mongo DB, Express JS, Firebase, Tailwind CSS, Daisy UI, HTML5, and CSS3 functionality. While doing this project I faced some problems. I solved the problem from Stack Overflow, the MDN website.

### **3. Why should hire you?**

Answer: I see your application through LinkedIn and you need skillful MERN Stack Developer. I must know React JS, Express JS, Mongo DB, HTML, and CSS for this job. I have done some projects with React JS, Mongo DB, and Express JS. I think I am qualified for this application. I am very hard working and I love coding. So I deserve a chance.

### **4. What is your expected salary?**

Answer: As a junior, I want to focus more on skills than salary. The salary was mentioned in your job description and I think I am satisfied with this salary.

### **5. Do you have any questions about us?**

Answer: First of all, how was my interview? Where do I need to improve? If you allow me, I have some more questions. Thanks for allowing me. You saw my resume and understand what I know. I want to do well in this sector, what else do I need to know? Ok. Thanks for answering my questions.
